Dan:

Attached are case assignments  
& supervisor statistics from  
Jan 1, 1997 as requested yesterday.

When assignments are made  
it is not simply a numbers  
game. Other factors such as  
complexity of cases and current  
individual P.O.'s daily activities (ie  
cases that have critical need for timely  
processing) are taken into consideration.  
If you want further explanation please  
call & I will be available for  
further comment.
